Subject: Fw: HSCD Hot Issues Briefing

FYI - Not sure if we have anything other than what has been currently going on. From a CIC standpoint, other than Dimock and [Not responsive] issue, I can't think of nothing else. BLR just provided the RA's office success storied information relative to the [Not responsive], can't think of anything else from a BLR standpoint as well.

In any event, please let know if you have anything so that I can get back to Ron...not having anything should be okay as well.

Thanks!

Walt

:

10.26.11 --

Please email your briefing papers to Amy Caprio and Mike D'Andrea no later than the Monday BEFORE your
schedule Hot Issues Briefing.

Hot Issue Briefings are each division's/office's opportunity to brief the RA and DRA on important and emerging issues
within their program. Please prepare a briefing paper for each issue you plan to present using the attached briefing
format as well as an agenda.

We are attempting to make these briefings as green as possible so there is no need to bring hard copy documents to
the briefing. The RA and DRA highly encourage the use of the audio visual equipment in the RA's Conference Room
(this does not mean that you are required to create a Power Point presentation). **Directors should invite all staff
necessary to the briefing and should coordinate with other divisions as needed.**
